EDUCATION

Walchand Institute of Technology, Solapur
Bachelor of Technology in Mechanical Engineering

2019 – 2022
Solapur, Maharashtra

WORK EXPERIENCE

Voya India
Software Engineer

April 2025 – Present

- Resolved Snyk-reported security vulnerabilities in Spring Boot microservices by upgrading dependencies, updating JDK, and refactoring backend code, improving application security and compliance.
- Worked on migration and stabilization of backend services to JDK 11 by fixing build issues, updating test cases, and validating REST APIs against legacy services to ensure functional parity.
- Designed and implemented Azure Blob Storage integration alongside existing AWS S3 storage, enabling cloud-agnostic file operations across dev and test environments.
- Developed a React dashboard feature that dynamically redirects users to the Azure-hosted profile portal using configurable base URLs and authenticated user context.

Wipro Limited
Software Developer L1

March 2023 – March 2025

- Developed RESTful backend services using Java, Spring Boot, and SQL for enterprise applications following microservices architecture principles.
- Optimized database queries and backend logic to improve application performance and reduce response time.
- Implemented unit and integration testing using JUnit and Mockito to improve code reliability and test coverage.
- Collaborated with stakeholders for requirement analysis and used Git-based version control for code reviews and team collaboration.

TECHNICAL SKILLS

Languages and Frameworks: Core Java, Spring Boot, REST APIs, Microservices, MySQL, MongoDB, JUnit, Mockito, Hibernate, Servlets-JSP, HTML, CSS, JavaScript, React, GitHub

Relevant Coursework: Data Structures and Algorithms, OOP Concepts, Jenkins, Bitbucket, Docker, Kubernetes, Maven, Gradle, Azure Blob Storage, AWS (S3)

PROJECTS

ResourceBlocker App

- Developed a user-friendly application for managing and reserving resources such as conference rooms, laptops, and projectors.
- Tech Stack:** Java, JSP, MySQL, Spring Boot, HTML, CSS.

ACHIEVEMENTS

- Awarded the WAY2GO Certificate for outstanding performance, service, and dedication (August 2025).
- 5-star rating on HackerRank (Problem Solving).
- 100 Days badge on LeetCode for consistency.
- Complete Guide to GitHub Copilot certification (LinkedIn Learning).
